WHOLESALE EPOXY SUPPLIES

METALLIC
EPOXY EP100™

Metallic Epoxy EP100™ is a 100% solid, high gloss with glass-like finish, self-levelling, solvent-free, colour stable two pack epoxy, specifically formulated to enhance the lustre of Metallic Colour Pigments™. DCC Metallic Colour Pigments™ are particles coated with various distinct pigments to create pearlescent and iridescent effects that mimic the natural look of stone and rock formations. These unique pigments combined with Metallic Epoxy EP100™ are designed to give the coating a shine that reflects light and creates an eye-catching dramatic colour. If you require UV protection, we recommend DCC Urethanes for maximum performance.

APPLICATIONS / ENVIRONMENTS
